

The Wigan Directors have been warmly congratulated from all quarters on the enterprise they have shown in being able to secure this season's Challenge Cup Final for Central Park.

Since the final was fixed for Wigan they have left no stone unturned to ensure that everything possible was being done for the convenience and comfort of the vast crowd that is expected to be present.

A number of extra turnstiles have been fixed, and a large number of spectators can enter the ground at entrances along the water side.

Other alterations and improvements have been effected in order to increase the accommodation, and it is expected that 50,000 people will be able to see with comfort.

The record "gate" at Central Park was 33,343 on March 3rd, 1920, on the occasion of Huddersfield's visit.

The biggest sum taken in a match at Central Park was £2,625, when Wigan played the Australians on October 15th, 1921.

Batley won the Challenge Cup the first two seasons of the competition in 1897 and 1898. The next two winners were Oldham and Swinton, after which Batley won the cup a third time.

This is Oldham's fourth successive final.

Oldham have won the Lancashire Cup five times. Swinton beat Wigan in the final last season, when the "Lions" won the trophy for the first time.

Oldham were in the League Final five seasons in succession from 1906-7 to 1910-11, and won the championship twice in that period, in both instances against Wigan.

It will be interesting to see if the record for a Cup Final is beaten to-day. The record was established when Wigan met Oldham at Rochdale in 1924, 41,831 people paying for admission. The receipts were £3,712 19s. 4d.
