Chairmans comments

A warm welcome to all visitors to Filtrona Park whether you are home or travelling support and to what I hope is an open and exciting game. We should now be used to playing in South Shields and again have to express our thanks for the use of the facilities. Whether we will be back at Gateshead before the Season ends remains to be seen. Indeed what our future is at the International Stadium remains somewhat uncertain but, hopefully, the next few weeks will provide some answers.

We expect a hard game again today from visitors who are enjoying a good season. Our own form remains disappointing with too many close encounters but all ending in defeat. Losing by one point, three points or four points is still losing and that winning habit is still hard to acquire. Scoring fifty two points looks impressive but when the opposition score fifty five

it takes something away from our attacking strength. The talent remains in the team and certainly there can be no complaint about effort, we just that little more to see us move up the league table, which is not beyond our capability. Incidentally for those who collect statistics it is five years since we last scored fifty or more.

On the wider front the Rugby League World Cup is not far away and what promises to be a great showpiece for our game. Our code of Rugby needs a higher profile and whilst Sky certainly give the game great coverage the same cannot often be said of the rest of the media. Press coverage on the national scene is often woeful and the class divide between the two codes is still evident. Many who criticise us have never experienced a live game or realise that it is tries that win matches not penalty goals often won in circumstances that few understand. So why not do your bit for the game, and Thunder, by bringing a friend to the next

home game, a friend or even two who have not experienced live Rugby League. They will probably be surprised.

The Season is rapidly moving towards the end, a strange situation before the end of June. Hardly making good use of 'Summer Rugby' but we remain at the whim of the controlling powers. The proposals for the restructuring of the leagues look a little confusing and contrived to say the least, and I remain to be convinced that they will do much for our game. They do pose a great threat to Thunder and we do need to ensure that we move away from the bottom positions that have been our place for too many seasons. However, that is next year and in the meantime and especially today enjoy your Rugby.

Bill Midgley OBE
Chairman.

I have recently been watching a lot of both junior and senior rugby in the North East. It's great to see the number of former players continuing to progress with their respective clubs having taken the experience they gained to help them excel in the conference competitions. The junior clubs are now seeking playing opportunities not just within the region but are going to the heart lands in Yorkshire and Cumbria to test themselves against established clubs and coming away with some fantastic results. Although we only have Andy Kelly in the region as a full time member of the RFL staff the game is continuing to gather momentum. All clubs need to pull together and keep on playing games no matter the numbers or who they are playing against. If we stop playing games through fear of getting beat then why play at all? From time to time I work with the Scholarship and Academy squad based at G.I.S to help the players develop but also give advice to the coaches. The attitudes and enthusiasm from Michael Heap, Jordan Robinson, Lee Carbutt, Karl Stephenson and Rob Jones is second to none. I know there will be

others out there that show the same passion for the North East. The message is simple; If all the clubs show a common interest in developing the region then the region will become self-sufficient and continue to grow and eventually produce players of Super League standard.

Onto today's game and our opponents Oldham. We have now played the Roughyeds twice and haven't come away with a win. I was very encouraged by the first game we played however felt let down in our second outing especially with the first 25 minutes we produced in our league encounter. We know enough about the threat they pose in the pack and playmakers. It is simply down to us whether we will counter these threats and put together a floorless performance which is needed to defeat one of the best teams in the competition.

Right I better get back to the day job of marking assessments and writing reports for the end of term.

Hope you enjoy the game.

Kevin

Hi everyone and welcome to today's game at Filtrona Park. I hope all the Oldham players, fans and staff had a safe trip down. We come into today's game on the back of a disappointing defeat against Rochdale and unfortunately I keep finding myself saying the same things. If I keep saying the same things then why don't we fix it you might ask, well if we knew that it would be easy! We turn up every week and work hard in training; we prepare well and head into the game with confidence from a solid week. For some reason we keep performing well below what I believe we as a team are capable of and unfortunately there is no easy explanation as to why but all I can say is we are working hard to put things right. There is nobody who wants to see success back at

Gateshead Thunder more than me and I just ask that you stay patient with us, again! Oldham has been playing some great stuff recently and I expect nothing less today. This will be the third time we have played them this year. The first time we played them we did okay and staged a pretty good fight back towards the end but we still came out second best. The second time we played them we didn't really turn up and subsequently we got punished for it. I'm hoping for a better performance from the lads today, we have to stand up in the middle against a big Oldham pack.

So on more of a positive note with every game comes an opportunity. We have the chance to pull together and prove the doubters wrong. After all we still have the best fans in rugby league!

Lastly I would just like to wish Chris Hood all the best for the future. As you will all be aware he is leaving the club to focus on his new business JamesGrace Consultancy. Good luck mate and thanks for your efforts. I hope you all enjoy the game and I'll catch up with you after.

Over and out,

Jason.

Player Profile

Josh Neilson

Name and squad number

Josh Neilson #3

Age - 21

Position - Centre/Wing

Favourite Food - Can't beat Mum's cooking. Anything by Mum!

Favourite Movie - I don't watch a lot of movies. I'd probably go with Zoolander, or just about anything with Will Ferrell in it. Definitely nothing scary

Interesting fact

I'm the only ginger Australian in the world!

Favourite rugby league ground

Been loving Filtrona this season. Also my local ground where I grew up playing. St John's oval, back in Newcastle, Australia. That'd would be right up there as well!

How important is this year for Thunder

Massive. We're at about the half way mark now and to be honest, I feel we've under performed. There's a massive amount of potential within this squad and we've still got a really good opportunity to make something special of this season.

What are you expecting from Oldham today

A really big and physical forward pack. That's what you generally get when you play this lot. They're also a pretty fit side, so we'll need to be really working hard to stick with them. They've got a couple of big outside backs who will be a handful if we let them, but we'll all be doing our best not to let that happen.

What are your hopes for the remainder of the season

For us as a team, I want to make the play offs. This is definitely do-able. We're making steps in the right direction and this is a goal I know the whole squad wants to achieve and are working hard towards. Personally, I want to chip in with a few more tries, keep my defense strong and try and stay injury free for the remainder of the season

What attracted you to Gateshead Thunder and why did you want to sign for the club

I was put onto the club by former Thunder player Paul Franze'. I played with Pauly at my local club Central Newcastle back in Oz. I had wanted to travel but I also wanted to keep testing myself with my footy. Pauly got me in touch with Chris Hood, and after a few e-mails and a little research into the club I'd signed. I didn't need a lot of persuading really. From what Paul Franze' had told me about the club, the supporters and the North East in general I was pretty keen to get myself over here and get stuck in. I had originally planned on staying for just the one season, but here I am half way through my second one and loving it.

Anything else you would like to say

A quick Hello to everyone back home (I'm sending them a copy of this program) and just a massive thanks to everyone at the game today, the sponsors, and in particular those of you who manage to get along every week and cheer us on. It means the world to us and I promise we're working hard to repay the faith!

GENERAL RUGBY LEAGUE NEWS

England coach Steve McNamara will travel to Australia this week to meet with his NRL based players.

McNamara will watch 10 matches during his 20-day trip, starting on Friday when he will see James Graham play for Canterbury Bulldogs against Sydney Roosters.

On Saturday he will be a guest at the Wests Tigers versus Canberra Raiders match. Sunday he will watch brothers Sam and George Burgess at Parramatta Stadium, when South Sydney Rabbitohs travel to Sydney's west to face Parramatta Eels. The following day he will take in the 'Monday Night Football' clash between Gold Coast Titans and Melbourne Storm at Skilled Park, where he will meet up with England star Gareth Widdop.

"I always aim to get over to Australia at least once a year to keep up-to-date with what is happening in the NRL and to meet up with the England players playing in the southern hemisphere," said McNamara.

"I will watch ten matches during my visit, including the second State of Origin. I have been invited to observe Queensland's training camp as they build-up to their game in Brisbane.

"I have also organised meetings with the England players to keep them updated and engaged with our plans as we continue to look ahead to the Rugby League World Cup. Even though I speak to our Australian based players at least couple of times a month, the opportunity to see them in person is vital. They are all excited about this year and representing England on home soil. It is a big deal for them."

The England boss will also carry out a number of media interviews during his time in Australia with a view to creating awareness of the England programme and the progress the international side is making.

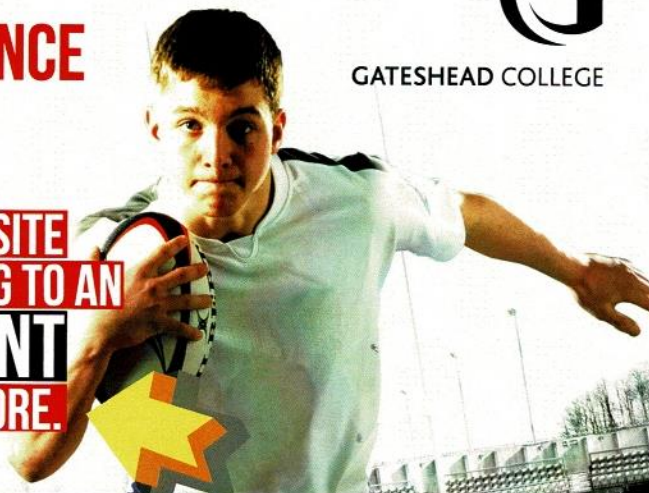

"I think it is important to continue to spread the word on the work we are doing at international level," added McNamara.

"Our boys are doing us proud in the NRL and for the first time in a number of years there is massive respect for our players and their influence within the game. It is important to embrace the sport and there is no better way to create awareness of the international game than speaking to the Australian media in their own backyard."
